Clothing	ask me		You must provide reference photos of real-life objects that can be worn by the animal. If it's something that is not in the market, i.e. it doesn't exist and I have to imagine it, e.g. let's say shoes for a tarantula...? Then it's not covered by this service. However, it can be an individual project which you can contact me privately about it.

\*For simple customisations, the delivery time is likely to be the same. The delivery time is expected to increase according to the level of customisation. E.g. Complex clothing items and accessories are requested. You will be informed about the estimated delivery time if that's the case.
